## SphereInvest Global Credit Strategies Fund, a sub-fund of SphereInvest Global UCITS ICAV Class I Shares – (ISIN: IE00BKXBBY02)

This Fund is managed by SphereInvest Group Ltd.

### Objectives and Investment Policy

The investment objective of the Sub-Fund is to achieve consistent risk-adjusted returns by investing in a globally diversified portfolio of publicly issued bonds. In seeking to achieve this investment objective, the Sub-Fund will invest primarily in a globally diversified portfolio of publicly issued fixed or floating rate corporate and/or government bonds from developed and emerging markets, which may include both investment grade (with a minimum “BBB-” rating from Standard & Poor's, or Baa3 ratings from Moody's) and sub-investment grade (“high yield”) securities. All securities and FDIs (other than permitted investments in unlisted investments) will be listed or traded in Permitted Markets in line with the requirements of the Central Bank of Ireland.

It is intended that the returns on the portfolio will arise primarily from coupon income rather than capital appreciation. Therefore the Investment Manager will not invest in any distressed securities. The Sub-Fund is not expected to have any bias towards any specific industry, geographic or other market sector.

The Investment Manager considers various factors in evaluating

securities for purchase by the Sub-Fund, including: (a) the issuer's financial condition; (b) the size and operating history of the issuer and its resilience to the business cycle; (c) the experience and track record of the issuer's management; (d) the review of the terms under which the securities are issued; (e) the securities' ratings and ratings outlook; (f) the yield, and the difference between the yield of the security and that of a risk-free asset of similar maturity; and (g) other factors set out in the Offering Supplement. The Sub-Fund may hold cash and cash equivalents on an ancillary basis. A portion of the Sub-Fund may consist of financial derivative instruments, such as futures, options or forwards for hedging and/or investment purposes. The Shareholders may redeem their Investor Shares on any Redemption Day which shall be the last business day of every calendar week. It is anticipated that any interest income generated will be re-invested.

### Risk and Reward Profile

The above risk and reward indicator rates this Fund as category 4 meaning that the Fund offers a moderate risk of making a loss but also a moderate chance of making gains. It should be noted that even the lowest category on the indicator does not mean risk free. The Fund's rating reflects the nature of its investments and the corresponding risks to which the Fund is exposed. The risk and reward profile of the Fund is not guaranteed to remain unchanged and may shift over time. These risk factors, which include the risks listed below, may affect the value of the Fund's investments or expose the Fund to losses:

**Liquidity Risk** – Certain types of assets or securities may be difficult to buy or sell, particularly during adverse market conditions. This may affect the ability to obtain prices for the assets and may therefore prevent the calculation of the NAV per Share and/or the raising of cash to meet redemptions of Investor Shares.

**Credit Risk** – Bonds or other debt securities held for a Fund involve credit risk represented by the possibility of default by the issuer. Securities which are subordinated and/or have a lower credit rating are generally considered to have a higher credit risk and a greater possibility of default than more highly rated and/or unsubordinated securities. In the event that any issuer of bonds or other debt securities experiences financial or economic difficulties, this may affect the value of the relevant securities and any amounts paid on such securities. This may in turn affect the NAV per Share.

**Operational Risk** – If a custodian or sub-custodian appointed by or on behalf of the Fund were to become insolvent, or act negligently or fraudulently this could lead to the substantial loss of securities held in custody for the Fund.

**Use of FDIs** – While the prudent use of FDIs can be beneficial, when used for investment purposes FDIs involve risks which are different from, and in certain cases, greater than, the risk presented by more traditional investments.

**For more information regarding risks, please see the Fund's Prospectus in the section entitled “Risk Factors”. The section entitled “Practical Information” below explains how you may obtain a free copy of the Prospectus and other useful information.**
